

Audit Automation and Workflow Software for Governments

Benefits:

- Streamline audit tasks
- Recommendation portal and database access for departments
- Application software built on top of SharePoint

Real-time Updates

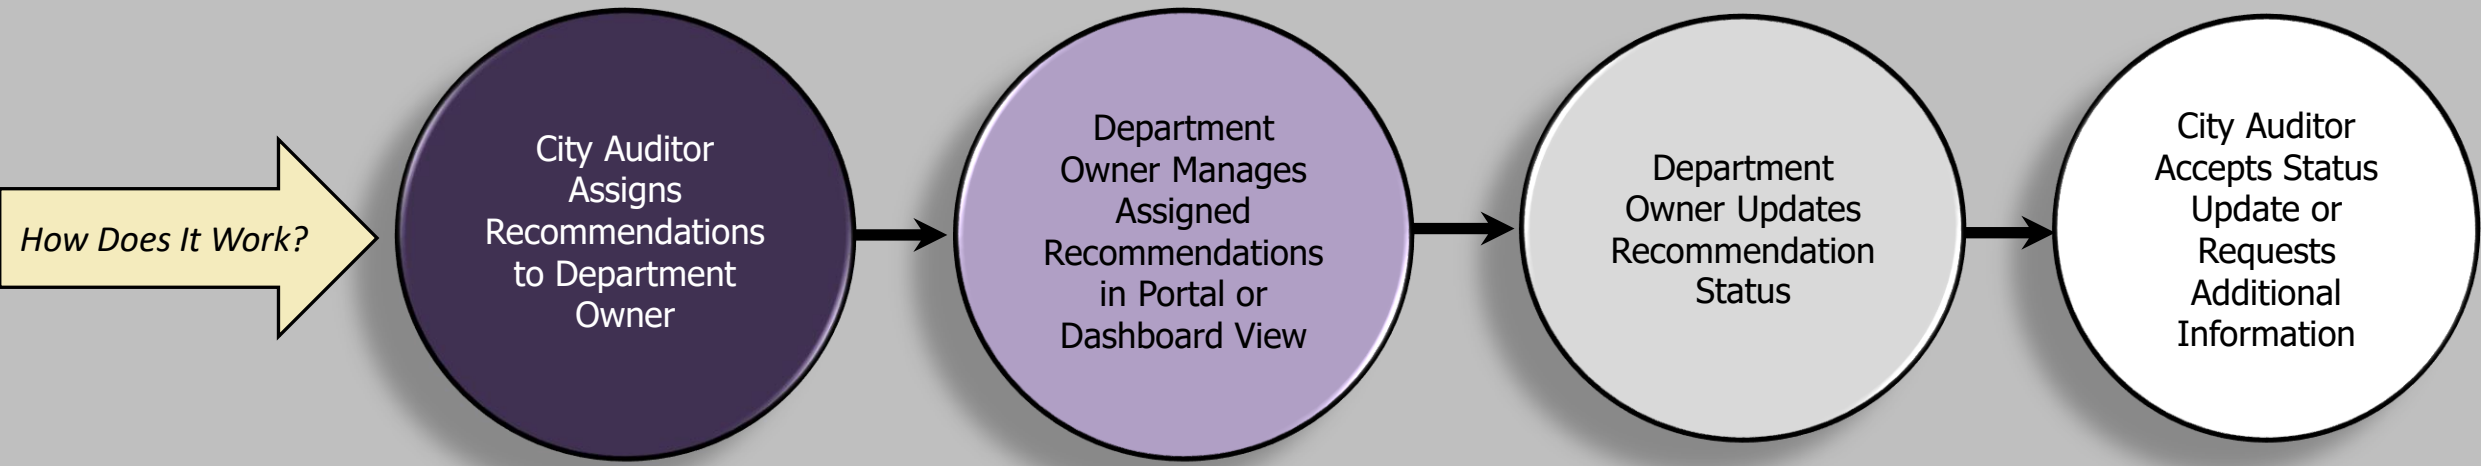

Track Audit Progress

Recommendation Portal and Database

Auditees and Auditors Track and Update Audit Recommendations

How Does It Work?

The **City Auditor's Office** is partnering with the **Mayor's Office of Innovation and Performance** to provide training and support to departments.

- View all opened and closed recommendations
- Review audit findings
- Export assigned recommendations to excel
- Update work in progress
- Add supporting documentation for implemented recommendations

For more information, contact the City Auditor at (404) 330-6750.
